

Clarity. Control. Impact.

All the source-to-pay solutions you need to gain clarity and control over spend—and drive greater impact through cost savings, business performance, and sustainability.

Turning source-to-pay strategic

Spend management plays a vital role in modern institutions, but it's often seen as an administrative task rather than a strategic advantage. That's changing fast as forward-thinking teams use modern, data-driven source-to-pay processes to increase efficiency, strengthen governance, and deliver measurable savings across departments — all while supporting stronger budget discipline and the institution's overall financial health.

The power of clarity, control & impact

With Unimarket, clarity means real-time visibility into spending trends and supplier activity. Control means

automated workflows, approvals, and governance that keep your institution aligned with policy and budget targets. And impact means putting that clarity and control into action — delivering measurable cost savings, stronger business outcomes, and progress toward sustainability goals.

Streamlining spend management

When clarity and control come together, spend management becomes a true strategic advantage — ensuring budget discipline, stronger compliance, and meaningful cost savings. By channeling spend to preferred suppliers and negotiating better pricing, institutions reduce ad hoc spending, rein in costs, and make every dollar work harder for long-term financial health.

Modular, easy-to-use solutions

Unimarket makes this possible with an intuitive, best-in-class, modular source-to-pay platform that connects every step – from sourcing, contracts, and Marketplace purchasing to procurement, invoicing, expenses, and payments. Our modular solutions provide teams with complete visibility into enterprise-wide spending, offering the tools to direct purchasing to trusted suppliers, reduce unauthorized spending, and enforce policies and budgets with confidence.

Easy and intuitive to use

Unimarket's intuitive Marketplace makes it easy for faculty and staff to find and buy what they need – with the same familiar shopping experience they expect as consumers. Routine orders take just a few clicks, with fast approvals and built-in compliance. For larger purchases, guided sourcing templates help buyers follow policy and secure the best value. The result? Faster adoption, more on-contract spend, and a quick return on investment.

From the back office to the boardroom

Unimarket helps procurement move from a behind-the-scenes function to a true strategic force. By transforming manual source-to-pay tasks into streamlined, connected workflows, procurement gains the clarity and control needed to deliver measurable cost savings and stronger business outcomes.

With complete visibility into spend, policy-driven workflows, and robust analytics, procurement becomes a trusted partner at the leadership table – ensuring your institution can better control costs, reduce rogue spend, and allocate resources where they'll have the greatest impact on financial strength and long-term success.

Our award-winning implementation, consulting, and customer support ensure that from start to finish – and well beyond the sale – Unimarket is with you every step of the way.

Seamless integrations with leading ERPs

Because Unimarket is fully cloud-based, your IT team won't spend time on installations or manual updates – everything runs automatically in the background. We handle supplier onboarding for you and integrate seamlessly with ERP systems you already trust, including Workday, Ellucian Banner, and Colleague, SAP, Oracle, and more.

Smarter for finance and accounts payable

With fixed, predictable pricing and no hidden fees, finance teams see clear ROI and savings from day one. Your subscription includes implementation, training, support, and full user access – allowing you to scale freely without incurring per-user costs. Automated invoice matching streamlines AP work, letting your team handle only exceptions instead of chasing paperwork.

Rapid return on investment

Unimarket's modular, easy-to-use solutions deliver immediate impact by boosting on-contract spend, cutting manual tasks, and generating savings across your institution. From day one, your teams gain the clarity, control, and visibility they need to deliver results that matter.

Why institutions choose Unimarket

- Modular source-to-pay platform – license only what you need
- Purpose-built for higher ed, healthcare, and government
- Seamless ERP integrations with Workday, Ellucian, SAP, and more
- Cloud-based and easy to use for buyers, suppliers, and admins
- Award-winning implementation, consulting services, and customer support
- Fixed, predictable pricing with clear ROI and measurable savings
